

## 3M<sup>SM</sup> Health Care Academy

The 3M<sup>SM</sup> Health Care Academy is a training and educational resource for healthcare professionals who want to stay up-to-date in their professional life and progress their career.

### Sterilization Series

The 3M Medical Solutions Division Sterilization webinar series on instrument reprocessing will bring several topics of interest to those working within the area of decontamination. The webinars will cover the latest developments in sterilization sciences, enabling further understanding of the most recent changes impacting the vital contribution effective decontamination makes to patient safety. During the series, we will host lectures from globally renowned experts within sterilization and decontamination sciences drawn from both clinical and academic settings.

#### The link between sterilization failures and risk to patients

Date: 23rd September 2020
